Subject: Faló

On Sat Night, Faló discoverd one of our maintenance staff, Keith Glenn, who had collapsed and was suffering a heart attack. He alerted the appropriate personnel, thus ensuring that Keith received timely medical attention. Keith is now in hospital but is in a satisfactory condition.

Faló's alertness and prompt action quite possibly saved Keith's life, and I would like to ensure that his actions are acknowledged and express our appreciation.

Regards,

Shelley de Courcy Lys
